"I worked with Shikha to upgrade the ground floor house in Zirakpur which was closed for more than 10 years. After living in Dubai, US, Uk for more than 20 years and being exposed to global standards I, have to say, Shikha is one of the most professional person I have come across. We were Lucy to find her. We were coordinating on WhatsApp and her response to my queries were super quick. She is efficient, clear headed and extremely competent. She is a master of execution with eye for detail.

I would love to work with her on a bigger project and recommend her to anyone who is looking for an efficient, proactive and professional company."
